

SHARP

SHARP INDOOR DVLED SCOREBOARD SOLUTIONS FOR EDUCATION

Discover Sharp's latest digital solution for Education!

Upgrade the look of school gymnasiums or athletic facilities with a direct view LED (dvLED) scoreboard.

Sharp's indoor video scoreboard solution, in partnership with ScoreVision, a leading supplier of scoreboard and fan engagement software, is designed for fast installation and easy maintenance. The bright screens and wide viewing angles allow all fans to view key stats and game information.

Due to the full HD resolution, high refresh rate and exceptional video quality, Sharp indoor scoreboards may also be used for non-sporting events, such as graduations, movie nights, or general assemblies. Every board installed in a gymnasium or assembly space is an opportunity for advertising and a way for schools to maximize the return on their investment.

With three convenient, preconfigured sizes to suit any space, they are excellent options for both sporting and non-sporting events. Each bundle comes with 5 year dvLED warranty, standard installation, on location site survey by Sharp technicians, ScoreVision Standard Edition Annual Subscription (1-yr term), ScoreVision Hardware Bundle, ScoreVision Integrated Advertising Subscription (1-yr term), ScoreVision server, and ScoreVision On site Installation and Commissioning.

Educational institutions across the country continue to choose Sharp products because of our commitment to:

- Solutions that are reliable and easy to install
- World class customer service and support
- Technology that drives student engagement
- Warranty programs unmatched in the industry

INDOOR SCOREBOARD 135 | NEC-LED-E015i-135-SV

SKU	14470589
Pixel Pitch	1.56 mm
Resolution Aspect Ratio	Full HD (1920 x 1080) 16:9
Brightness (typical)	600 cd/m ²
Serviceability	Front serviceable
Contains:	
dvLED display	NEC-LED-E015i-135
5 Year Warranty	NEC-EXT5YE015i-135
